Vol. 19 No. 1

Sexual reproduction in four Caribbean commercial sponges. I. Reproductive cycles and spermatogenesis
Heather R. Kaye and Henry M. Reiswig 1
Sexual reproduction in four Caribbean commercial sponges. II. Oogenesis and transfer of bacterial symbionts
Heather R. Kaye 13
Sexual reproduction in four Caribbean commercial sponges. III. Larval behavior, settlement and metamorphosis
Heather R. Kaye and Henry M. Reiswig 25
Permeability barriers and anionic sites of the ovarian basal laminae in the black blowfly *Phormia Regina* (Meigen) (Diptera, Calliphoridae)
F. Giorgi, C.-M. Yin and J.G. Stoffolano Jr. 37
Chromosome behaviour upon fertilization in eggs of the giant freshwater prawn, *Macrobrachium rosenbergii* (de Man)
Praneet Damrongphol, Nittaya Eangchuan and Boonserm Poolsanguan 45
Hemispheric-apex cells in the mantle epithelium of *Loligo vulgaris* and *Loligo forbesi* hatchlings and juveniles: a transmission electron microscope study
W.P. Paulij, J.L. Kallen and J.M. Denucé 51
Is reproduction mainly regulated by temperature or photoperiod in *Pectem maximus*?
Yves-Marie Paulet (Brest) and Jean Boucher 61
Ecdysteroids during the development of the tsetse fly
Alain Robert, Colette Strambi, Alain Strambi and Jean-Paul Delbecque 71
Short communication: Volatile compound from the coelomic fluid of *Nereis succinea*: biological activity as sex pheromone
J.D. Hardedge, H. Bartels-Hardege and E. Zeeck 83

Vol. 19 No. 2

Origin, structure and function of the amebocytes of the male reproductive system in *Dina lineata* O.F. Müller (Hirudinea, Erpobdellidae)
S. Bonet and M. Molinas 87
Growth and development of spermducts of the tobacco budworm moth *Heliothis virescens, in vivo* and *in vitro*
M.J. Loeb 97
The fine structure of the growth stage oocytes of a lancelet (=amphioxus), *Branchiostoma lanceolatum*
Nicholas D. Holland and Linda Z. Holland 107
Symbiont bacteroids in eggs and germ cells of *Sciara ocellaris* (Diptera; Sciaridae)
A.F. Ribeiro and A.L.P. Perondini 123
Pleiotropic ovarian defects in *ecd-1*, a temperature-sensitive mutant of *Drosophila melanogaster*
Georges Pétavy 131
Hatching asynchrony within the egg mass of the pond snail, *Lymnaea stagnalis*
René Marois and Roger P. Croll 139
Demonstration of serotonin receptors in isolated *Spisula* oocyte membrane
A.H. Bandivdekar, S.J. Segal and S.S. Koide 147
First SEM studies on tardigrade spermatozoa
Lorena Rebecchi and Alessandra Guidi 151
Quantitative cellular analysis of growth and reproduction in freshwater planarians (Turbellaria; Tricladida). I. A cellular description of the intact organism
Rafael Romero and Jaume Baguñà 157

Vol. 19 No. 3

Pigment granule formation in the isopod, *Armadillidium vulgare*
S. Negishi and Y., Hasegawa....167
Comparative reproduction of the deep-sea crabs *Chaceon fenneri* and *C. quinquedens* (Brachyma: Geryonidae) from the Northeast Gulf of Mexico
R.B. Erdman, N.J. Blake, F.D. Lockhart, W.J. Lindberg, H.M. Perry and R.S. Waller....175
Ecdysteroids during the gonadotrophic cycle of the *Labidura Riparia* female (Dermaptera)
Fouad Sayah, Catherine Blais, Michael Breuzet and Antoinette Karlinsky....185
Motility-related ultrastructural changes in the glagellar membrane of asyrene spermatozoa of the Silkworm, *Bombyx mori*, induced by Arg-C endopeptidases
Minoru Osanai, Hiroko Kasuga and Toshiro Aigaki....193
Sensory neurons of the Bipinnaria Larva of the Sea Star, Luidia senegalensis
Miéko Komatsu, Fu-Shiang Chia and Ron Koss....203
Effects of elevated, sublethal temperatures during pupal-adult development of male Bertha Armyworm, *Mamestra configurata* Walker (Lepidoptera, Noctuidae), on fertility mating and egg laying
George H. Gerber, Robert P. Bodnaryk and John Walkof....213
A study of ectodermal cell communication in the mantle epithelium of *Loligo vulgaris* and *Loligo forbesi* hatchins using iontophoretic dye function
W.P. Paulij, P. Gevers and J.M. Denucé....225
Intensity of the male reproductive diapause in *Bruchidius Atrolineatus* PIC coleoptera Bruchidae is affected by induction conditions
I.A. Glitho, A. Lenga and J. Huignard....233
Spermiogenesis and sperm ultrastructure in *Acanthobdella peledina* (Hirudinea) with some phylogenetic considerations
Åke Franzén....245
Effect of extrinsic polyamines on post-spawning testes of the sea star, *Asterias vulgaris* (Echinodermata): implications for the seasonal regulation of spermatogenesis
Jill C. Sible, Adam G. Marsh and Charles W. Walker....257

Indexes to Vol. 19....267
